Comprised of an international team of architects, designers, thinkers, and administrators, the firm is currently involved in large number of projects throughout Europe, North America, Asia, and Africa. Its architecture and design emerges from research and a balance of hybrid-programming solutions, which adapt to and anticipate future contextual change. The output of WAA is acclaimed for both its craftsmanship and tacity.

At **INNER CITY** we show two sculptures from the 'Interiority' Series: UBU and AHQ that Wiel Arets made for the Cityscapes exhibition 'A WONDERFUL WORLD' in 2011 at Locus Solus Art Space in Antwerp. The Interiority Sculptures are made of laser cut, solid aluminum and depict the movement of the public through recently completed buildings by Wiel Arets Architects. The works are both architectural research models and autonomous sculptures.
